PhoneMaster 6 – Interactive Demo Setup Guide

PhoneMaster Login Credentials: Username: *admin* / Password: *0000*

The following procedure describes how to install the PhoneMaster Interactive Demo.

- After successfully downloading the PhoneMaster Interactive Demo, run the file name PM6DemoSetup.exe from the directory where you downloaded the file to. This installs the PhoneMaster files in a directory of your choice (the default directory being C:\Program Files\PhoneMaster6 Demo\).

- Run PhoneMaster from the Program Group, or from the Start Menu, or run PhoneMaster6.exe from the PhoneMaster directory chosen in Step 1. PhoneMaster login requires a username and password. The default username is "admin" and the password is "0000″.

- Our on-line Help facility will help you learn about the features and facilities provided by PhoneMaster. The on-line Help can also be viewed by clicking the Help button or the F1 key on any screen or by using the Help menu.

- If you require technical support, contact Phoneware's Technical Support Helpdesk:
